JAKKS Pacific Reports First Quarter 2021 Financial Results

Strong Sales Increase, Margin Expansion and Operating Cost Leverage Drive Significant Improvement in Results

SANTA MONICA, Calif.--(BUSINESS WIRE)--April 28, 2021--JAKKS Pacific, Inc. (NASDAQ: JAKK) today reported financial results for the first quarter ended March 31, 2021.

First Quarter 2021 Overview:

- Net sales were \$83.8 million, up 26% compared to \$66.6 million last year
- Highest year-over-year first quarter sales growth since Q1 2015
- Gross margin of 31.1%, up 650 basis points vs. Q1 2020
- Highest Q1 gross margin percentage since 2017
- Net loss attributable to common stockholders of \$24.4 million compared to a net loss attributable to common stockholders of \$12.3 million in Q1 2020
- Adjusted net loss attributable to common stockholders (a non-GAAP measure) of \$9.5 million, compared to an adjusted net loss attributable to common stockholders of \$21.9 million in Q1 2020
- Adjusted EBITDA (a non-GAAP measure) was negative \$2.4 million, compared to negative \$13.9 million in the first quarter of 2020
- Trailing twelve month adjusted EBITDA of \$39.5 million (7.4% of net sales) up 79% from \$22.1 (3.7% of net sales) in the trailing twelve months ended March 2020

Management Commentary

JAKKS Chairman and CEO Stephen Berman stated, "We had an excellent beginning to 2021, with strong sales growth in many product lines, a healthy increase in gross margins, and tight cost controls. We delivered the best first quarter operating results since 2015, with significant improvement in sales, gross margin, adjusted net income and adjusted EBITDA. These results reflect the efforts we have made to broaden our product line, reduce our operating costs and cut interest expense.

"During the quarter, we drove double-digit sales increases in all of our toy divisions: Boys, Girls and Seasonal. We saw strong sales of products tied to video games, including Nintendo, Sonic the Hedgehog and Apex: Legends, a near doubling of sales in Disney Princess, solid initial sales of Raya and the Last Dragon, and continued strength in Black & Decker. We also registered strong sales of our own brands such as Perfectly Cute and Redo Skateboards. These sales gains easily offset the expected sales decreases we saw in Frozen, Frozen 2, and Fly Wheels.

"We are especially pleased by our continued success in reducing our operating costs, as reflected by our strong increase in gross margin and lower SG&A costs. Looking toward the balance of the year, we expect to continue to benefit from lean retail inventories and lower operating costs. Our retail POS trends remain positive, and we have a well-balanced line of new and continuing products planned for the holiday season. As we have for our 27-year history, we will focus on proven play patterns and our partnerships with world-class license partners and highly recognizable brands.

"As 2021 unfolds, we expect to see a return to more normal patterns of shopping, gift-giving and celebrating Halloween. We believe we are set up very well for a year of increased sales, improved EBITDA and a strengthened financial position, which we expect to generate strong momentum and can position us well for 2022 and beyond."

First Quarter 2021 Results

Net sales for the first quarter 2021 were \$83.8 million up 26% versus \$66.6 million last year. The increase was driven primarily by higher sales of products across our Toys/Consumer Products segment which were up 28% globally. Net sales of Disguise costumes were essentially flat compared to last year.

Gross profit in the first quarter of 2021 was \$26.1 million or 31.1% of net sales, compared to \$16.4 million or 24.6% of net sales in the prior year, driven by significantly improved product margins and lower royalty costs as a percent of sales. SG&A costs were \$28.8 million, down from \$32.3 million in the prior year. As a percent of net sales, SG&A costs were 34.4%, down from 48.6% in the prior year.

The net loss attributable to common stockholders was \$24.4 million, or \$4.54 per basic and diluted share, compared to a loss of \$12.3 million, or \$4.09 per basic and diluted share in the first quarter of 2020. Net loss in the first quarter of both 2021 and 2020 included several significant adjustments, including those related to changes in the fair value of convertible senior notes and preferred stock derivative liability and other adjustments. Excluding such adjustments in both years, the adjusted net loss attributable to common stockholders (a non-GAAP measure) was a loss of \$9.5 million, or \$1.77 per basic and diluted share in the first quarter of 2021 compared to a loss of \$21.9 million or \$7.23 per basic and diluted share in the first quarter of 2020. Adjusted EBITDA (a non-GAAP measure) was negative \$2.4 million for the first quarter of 2021, compared to negative \$13.9 million a year ago. For the trailing twelve months ended March 31, 2021, adjusted EBITDA was \$39.5 million, up 79% compared to \$22.1 million for the trailing twelve months ended March 31, 2020. (See note below on "Use of Non-GAAP Financial Information.")

Cash and Cash Equivalents

The Company's cash and cash equivalents (including restricted cash) totaled \$84.1 million as of March 31, 2021 compared to \$92.7 million as of December 31, 2020, and \$44.0 million as of March 31, 2020.

Use of Non-GAAP Financial Information

In addition to the preliminary results reported in accordance with U.S. GAAP included in this release, the Company has provided certain non-GAAP financial information including Adjusted EBITDA which is a non-GAAP metric that excludes various items that are detailed in the financial tables and accompanying footnotes reconciling GAAP to non-GAAP results contained in this release. Management believes that the presentation of these non-GAAP financial measures provides useful information to investors because the information may allow investors to better evaluate ongoing business performance and certain components of the Company's results. In addition, the Company believes that the presentation of these financial measures enhances an investor's ability to make period-to-period comparisons of the Company's operating results. This information should be considered in addition to the results presented in accordance with GAAP, and should not be considered a substitute for the GAAP results. The Company has reconciled the non-GAAP financial information included in this release to the nearest GAAP measures. See the attached "Reconciliation of Non-GAAP Financial Information." "Total liquidity" is calculated as cash and cash equivalents, plus availability under the Company's \$60.0 million revolving credit facility.

JAKKS Pacific, Inc. and Subsidiaries Reconciliation of Non-GAAP Financial Information (Unaudited)

Reconciliation of GAAP to Non-GAAP measures:

This press release and accompanying schedules provide certain information regarding Adjusted EBITDA and Adjusted Net Income (Loss), which may be considered non-GAAP financial measures under the rules of the Securities and Exchange Commission. The non-GAAP financial measures included in the press release are reconciled to the corresponding GAAP financial measures below, as required under the rules of the Securities and Exchange Commission regarding the use of non-GAAP financial measures. We define Adjusted EBITDA as income (loss) from operations before depreciation, amortization and adjusted for certain non-recurring and non-cash charges, such as reorganization expenses and restricted stock compensation expense. Net income (loss) is similarly adjusted and tax-effected to arrive at Adjusted Net Income (Loss). Adjusted EBITDA and Adjusted Net Income (Loss) are not recognized financial measures under GAAP, but we believe that they are useful in measuring our operating performance. We believe that the use of the non-GAAP financial measures enhances an overall understanding of the Company's past financial performance, and provides useful information to the investor by comparing our performance across reporting periods on a consistent basis.

Investors should not consider these measures in isolation or as a substitute for net income, operating income, or any other measure for determining the Company's operating performance that is calculated in accordance with GAAP. In addition, because these measures are not calculated in accordance with GAAP, they may not necessarily be comparable to similarly titled measures employed by other companies.
