### Management Commentary

“For the third consecutive year we have met or exceeded our key financial full-year targets” said Stephen Berman, CEO of JAKKS Pacific. “The year began with the challenge of revenue comparisons with a 2022 hit-driven blockbuster product line, but we also saw opportunities for gross margin improvements with a normalized supply chain. Gross and operating margins improved year-over-year despite a \$80+ million decline in Net Sales, generating over \$66 million in operating cash flow for the year.

“The holiday toy season came late this year, but we were pleased with the results. Two of our top three US Toys/Consumer Products customers achieved positive year-over-year retail sales results in Q4 despite challenging comparisons from the prior year. Our aggregate end-of-year inventory at retail at those three accounts is also down by a high single digit percentage compared to last year. Although customers are tentatively moving into the new year, we believe our core businesses remain on solid footing.

#### **Fourth Quarter and Full-Year 2023 Results**

Net sales for the fourth quarter of 2023 were \$127.4 million, down 3% versus \$131.9 million last year. The Toys/Consumer Products segment sales were up 1% globally (flat in North America; 7% International) and sales of Costumes were down 40% compared to last year (-54% North America; -20% International).

Full-year Toys/Consumer Products sales were down 10% compared to 2022. The Costumes segment was down 12% vs. 2022, as customers continue to recalibrate to post-COVID levels. Our 2023 Costumes performance was nonetheless 22% higher than 2021.

#### **Balance Sheet Highlights**

The Company's cash and cash equivalents (including restricted cash) totaled \$72.6 million as of December 31, 2023, compared to \$85.5 million as of December 31, 2022.

#### **Use of Non-GAAP Financial Information**

In addition to the preliminary results reported in accordance with U.S. GAAP included in this release, the Company has provided certain non-GAAP financial information including Adjusted EBITDA which is a non-GAAP metric that excludes various items that are detailed in the financial tables and accompanying footnotes reconciling GAAP to non-GAAP results contained in this release. Management believes that the presentation of these non-GAAP financial measures provides useful information to investors because the information may allow investors to better evaluate ongoing business performance and certain components of the Company's results. In addition, the Company believes that the presentation of these financial measures enhances an investor's ability to make period-to-period comparisons of the Company's operating results. This information should be considered in addition to the results presented in accordance with GAAP and should not be considered a substitute for the GAAP results. The Company has reconciled the non-GAAP financial information included in this release to the nearest GAAP measures. See the attached "Reconciliation of Non-GAAP Financial Information." "Total liquidity" is calculated as cash and cash equivalents, plus availability under the Company's \$67.5 million revolving credit facility.

**Reconciliation of Non-GAAP Financial Information (Unaudited)**

**Reconciliation of GAAP to Non-GAAP measures:**

This press release and accompanying schedules provide certain information regarding Adjusted EBITDA and Adjusted Net Income (Loss), which may be considered non-GAAP financial measures under the rules of the Securities and Exchange Commission. The non-GAAP financial measures included in the press release are reconciled to the corresponding GAAP financial measures below, as required under the rules of the Securities and Exchange Commission regarding the use of non-GAAP financial measures. We define Adjusted EBITDA as income (loss) from operations before depreciation, amortization and adjusted for certain non-recurring and non-cash charges, such as reorganization expenses and restricted stock compensation expense. Net income (loss) is similarly adjusted and tax-effected to arrive at Adjusted Net Income (Loss). Adjusted EBITDA and Adjusted Net Income (Loss) are not recognized financial measures under GAAP, but we believe that they are useful in measuring our operating performance. We believe that the use of the non-GAAP financial measures enhances an overall understanding of the Company's past financial performance, and provides useful information to the investor by comparing our performance across reporting periods on a consistent basis.

Investors should not consider these measures in isolation or as a substitute for net income, operating income, or any other measure for determining the Company's operating performance that is calculated in accordance with GAAP. In addition, because these measures are not calculated in accordance with GAAP, they may not necessarily be comparable to similarly titled measures employed by other companies.
